To Whom It May Concern:

I had the pleasure of working with Tom Howe at Valley Etching. Tom is a skilled Graphic and Web Designer. He is an efficient and flexible worker who is capable of managing many tasks including: graphic design for print and digital intent, keeping track of jobs in progress, communicating with customers as well as shipping the final product to the customer. Tom has demonstrated the ability to prioritize and keep track of many projects at a time. He maintains good communication with many customers as well as management and co-workers keeping production running smoothly.

Some of the largest projects Tom worked on at Valley Etching included: Designing print ads and marketing material. These were done for Valley Etching's parent company "Signature Engraving Systems". Tom also did all of the graphics and films for magnesium dies and rebuilt the Signature Engraving Systems website from scratch. Tom has demonstrated the ability to meet deadlines, work creatively and independently and take input from others to make a better final product.

Tom is a reliable, creative talented individual. He is fast learner and problem solver with skills beyond graphic design. I am confident that Tom will be an asset to your company.

Sincerely,
Beth Whitten-Campurciani

Manager: Valley Etching Engraving and Design
